***THE SITUATIONAL AWARENESS IN SELF DEFENSE***

The first and probably the most important component in self-defense is Awareness of you, your surroundings and the location of any potential attacker. This system of awareness strategies and topics will help you avoid becoming a victim of most potential attackers. Being aware of what is going on around you sends any potential attacker a clear message.

1. I'm not an easy target
2. I will be able to recognize, who relies upon their target being unaware and use this to their advantage. Situational awareness takes the advantage away from the predator.
